

Three Towers of 10

You need

- dot cube 
- 30 connecting cubes per player, in 2 colors 
- crayons in 2 colors 
- recording sheet

Play with a partner. Work together.

- 1 Each player picks a color of cubes.
- 2 Player 1 rolls and makes a tower with that many cubes.
- 3 Player 2 rolls and takes that many cubes.
- 4 Player 2 adds the cubes to the tower. A tower can have only 10 cubes. Start a new tower with any extra cubes.
- 5 The game is over when there are 3 towers of 10 cubes.
- 6 Both players record. Show how many cubes of each color there are in each tower. Write an equation for each tower.

More Ways to Play

- Make 5 towers of 10.
- Make 3 towers of 15.
- Play with 2 dot cubes.
- Play with 1 dot cube and 1 number cube.
- Play with 2 number cubes.
